VISHNU INSTITUTE OF TECHNOLOGY

BOT LAB

Vishnu Institute of Technology has exchanged an MOU with Automation Anywhere University and established centre for excellence (BOTLAB).

Students as well as Faculty members of Vishnu Institute of Technology can participate in the training activities in BOTLAB. All the participants will be trained to create RPA bots (software robots) using varied recorders, editors and commands. Upon successful completion of training, they are eligible for RPA Certification by AAU.

RPA can create huge job opportunities over the next three years. The knowledge of RPA tools will improve the placement opportunities of the students.
